

Your enforcement function is fragmented. OrcheSight makes it whole.

One AI platform. One dedicated team. One unbroken chain of custody.

THE NEXT EXECUTIVE ROLE

CIO

CIE

Now

Chief Information Enforcer — one leader for all digital enforcement. OrcheSight makes it possible.

BEFORE · AFTER

TODAY

5 departments. 8 tools. Zero coordination.

- **HR investigates**
Email exports, HR tools, manual case notes
- **Cyber investigates**
SIEM alerts, EDR logs, forensic disk images
- **Legal collects**
eDiscovery platform, separate collection tool
- **Compliance audits**
GRC platform, audit spreadsheets, archiving
- **No shared evidence**
Each team operates in complete isolation
- **Inconsistent standards**
No unified chain of custody across teams
- **Duplicated licensing**
3x cost for capabilities every team needs

TOMORROW

1 platform. 1 enforcement unit. Full visibility.

- **One dedicated unit**
Serves HR, Cyber, Legal and Compliance
- **One collection engine**
All sources — endpoints, cloud, messaging
- **One case file**
All evidence under one investigation
- **One AI pipeline**
20+ automated processing stages
- **Shared chain of custody**
Court-ready, tamper-evident, always
- **One evidence standard**
Consistent quality across every department
- **One licence**
Replace 3x redundant tool spend instantly

One platform. One enforcement unit.

Built on 25 years of forensic expertise. Court-ready by design.

PLATFORM MODULES

Collection

Forensic-grade acquisition from endpoints, cloud, email and messaging

Investigation

End-to-end case management, cross-department workflow and evidence coordination

Intelligence

AI entity resolution, link analysis and behavioral pattern detection

Review

AI-assisted document review, privilege detection, PII identification, redaction

Incident Response

Rapid triage and investigation of security events, insider threats, exfiltration

Interrogation Room

AI interview analysis, statement consistency scoring, contradiction detection

Compliance

Policy enforcement workflows, regulatory audit management, compliance reporting

Custom Agents

Domain-specific AI agents with custom rules, triggers and workflows

COMPETITIVE DIFFERENTIATION

End-to-End Full Lifecycle

Relativity + Cellebrite partnered because neither covers the full stack. We already do.

AI-Native From Day One

20+ automated processing stages with intelligent agents built in, not retrofitted.

Air-Gap Capable

Cloud-only competitors cannot serve classified or restricted government environments.

25 Years Domain Expertise

Built by practitioners who ran real investigations — not a startup learning the space.

DEPLOYMENT OPTIONS

SaaS on Azure

- Fully hosted on Microsoft Azure
- Instant provisioning
- Subscription billing
- MACC burn-down eligible

Air-Gapped

- On-premises deployment
- For classified environments
- No cloud dependency
- Full data sovereignty

Managed Service

- Fully operated by Bis-tec
- Forensic experts on-call
- SLA-backed support
- 25yr practitioner team
